

IAC-05

Azure DevOps & IaC Hands-On

DURATION

5 days

FORMAT

Remote live in express format, in-house optional · German or English

AUDIENCE

Operators and admins on the path to engineer who want to build and roll out infrastructure as code. Azure knowledge at AZ-104 level recommended.

Certification anchor: Hands-on track without exam focus. AZ-400 as an optional follow-up path.

OUTCOMES

- ▶ Write, test and deploy infrastructure as code with Bicep and Terraform
- ▶ Build CI/CD pipelines with Azure DevOps and GitHub Actions
- ▶ Roll out environments repeatably and versioned instead of click operations
- ▶ Lay the foundation for the AZ-400 path

AGENDA

Day 1	Pre-flight check: Git, repos, IaC principles, tooling setup
Day 2	Bicep: modules, parameters, deployments, what-if analysis
Day 3	Terraform on Azure: providers, state, modules, workspaces
Day 4	Pipelines: Azure DevOps and GitHub Actions, environments, approvals
Day 5	Capstone: deploy a complete landing zone as code, review

YOUR TRAINER

Dino Bordonaro

7x Microsoft MVP (Azure, Azure Hybrid, Cloud & Datacenter Management), Microsoft Certified Trainer, almost 30 years in IT. Trains Microsoft partners, among others for the ADN distribution. His strength: he connects sales and technology. Pricing models, objections and architecture in a language that decision makers and engineers both understand. More than 500 professionals trained, every concept proven in his own Tier 4 lab.

from €3,500 plus VAT

Per person, 5 training days. In-house from €6,900 per training day, up to 12 people.
